Play A Game

GameManager -rawWPM:double

- -realWPM:double
- -accuracy:double
- -textQ:LinkedList<String>
- -inputQ:LinkedList<String>

getters

- +update():boolean
- +pushChar(char):boolean
- +removeChar():boolean
- +newGame(int):void
- +startTimer():void

Handle Word Generation

Word Generator

- -difficulty:int -private:LinkedList<Word>
- +setDiff(int):void +addWord(String):void
- +generate(int):String
- -sortWords():void
- -shuffle():void

Word <<Comparable>>

- -value:String -diff:double
- getters +calcDiff(String):double

+compareTo(Word):int

Terminal TerminalGame

-colors:LinkedList<Boolen> -handler:KeyboardHandler

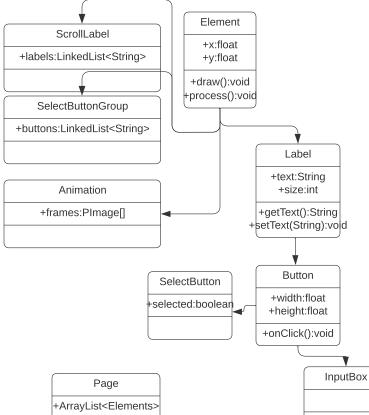

- +endGame():void +updateScreen():void
- +registerKeyEvent(KeyEvent):void
- +setup():void
- +animation():void

KeyboardHandler <<KeyboardListener>>

-game:TeminalGame() -frame:JFame

+keyPressed():void +keyReleased():void +keyTyped():void

Processing

Manage Leaderboard

Leaderboard

-entries:LinkedList<Entry>

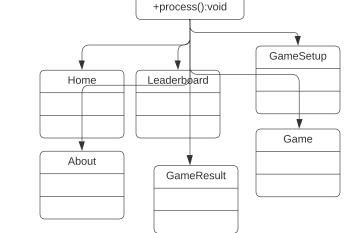

- +globalLeaderboard():LinkedList<Entry>
- -sort():void
- +localLeaderboard():LinkedList<Entry>
- +addEntry(String):void

Entry <<Comparable>>

- -raw:double
- -real:double -acc:double
- -name:String

getters

+compareTo(Entry):int

+setup()

+draw():void
